A TOTAL WETROOM SOLUTION

Our wetroom trays, wall boards, floor boards, seating & furniture are all made from high grade extruded polystyrene (XPS) which has been coated with a special polymer modified cement into which is bonded a fibre glass mesh. The result is a strong, totally waterproof, thermally insulating, incredibly lightweight & easy to cut material that is transforming wetroom design.

CREATING YOUR PERFECT WETROOM IS AS EASY AS 1-2-3

1. Choose to install using Sloping Boards or a Wetroom Tray then add an Installation Kit or a Sealing Kit with the drain option of your choice.
2. Take a look at the extra items available for your wetroom. Pick from: waterproof thermal boards for walls and floors, bath panels, seating kits, wall niches & a floating shelf.
3. Add additional fixings if required.

INTRODUCING...

super-strong ACRYLIC

Smooth high gloss acrylic is solid in colour so it won't rub off or fade.
Fully encapsulated high strength baseboard.
A special mix of polyester resin seals in the baseboard, increasing rigidity and acting as a thermal layer so the water stays warmer longer.

super-strong ACRYLIC has many benefits over standard acrylic. Made using the latest materials and techniques it produces a bath that is as strong as cast iron but is warmer to the touch and retains heat longer than a standard bath.

Most of our acrylic baths are available with **super-strong ACRYLIC**. The extra strength makes it ideal for use in a shower bath where the weight is concentrated at one end, this puts extra strain on the structure of the bath but with **super-strong ACRYLIC** the bath remains strong and rigid.

ZENITH LOW PROFILE WORKTOPS

Super hardwearing with realistic patterns, textures and a sleek profile, Zenith is a great contemporary alternative to stone, marble & quartz.

Designed to look, feel and perform like stone, Zenith is a solid core laminate. That means it can be cut and fitted on site with no special tools required – and no long and expensive lead times for templating and specialist fitting.

Manufactured for toughness with a thickness of only 12.5mm, Zenith is fully waterproof with a consistent coloured solid core and features a double-sided decorative finish, making it a great choice for cutting into bespoke shapes and creating matching shelves or sills.

STEAM ROOM

Steam offers multiple benefits, including the ability to soothe sore muscles and improve flexibility, while also relieving tension from a tiring day. It can aid falling asleep faster, achieving a more restful sleep and waking up feeling revitalized and ready for a new day.

Steam aids in the detoxification and release of impurities by stimulating blood flow throughout the body. It also offers relief from allergies and respiratory problems such as asthma, as well as skin conditions like eczema and acne.

The penetrating warmth of steam moisturizes dry skin, providing hydration. By opening up the pores, the skin becomes more receptive to nutrients, thus enhancing collagen production, leading to healthy smooth skin and reducing the visible signs of aging.

STEAM ROOM STARTER KIT

Our steam room starter kit consists of three essential parts: a steam generator, a digital touch screen control pad and a steam outlet. Our steam generators are compact, making them suitable for bathrooms of any size. They can be conveniently tucked away in small spaces so you can enjoy a luxurious steam room experience without sacrificing space.
